

NATURAL VERSATILITY AT OUR CORE

“At Autentico, we manufacture our own lines of furniture, wall, exterior and masonry paints, combining technology with tradition and creativity with professionalism.

Whether you embark on a creative venture, a home or a commercial building endeavour, Autentico will always provide a high-quality, honest and versatile product solution to suit your aspirations.

Our paints are all very low in VOC and suitable for highly demanding sustainable project solutions. Many of our core products are completely child safe (EN71-3) and washable (Scrub Class 1).

The colours in this colour book offer you a complete overview of our hand-picked colours. To serve architects and specifiers, we also offer NCS, RAL and RAL Design colours for Velvet, Vivace and Esterno. However, colour experience is dependent on local circumstances such as light and shadow intensity. To experience a colour “in the flesh”, we have A4 brush-outs available for many of our products. You can order brush-outs from your local Autentico stockist or online from our website”.

OUR PRODUCTS

We strongly believe a good paint can only excel when used on a project it was developed for.

Whether you have a project in mind to paint interior walls, a kitchen or a bathroom, high traffic hallways, furniture or aiming to paint exterior walls, we have a dedicated paint that will suit your needs.

PREPARATION. No PREP, no GLORY

A project can only be finished successfully when you pay attention to the necessary preparation. Only a minimum prep is needed for some projects, such as furniture painting. Just make sure you are always painting on a clean and stable underground. Other projects require more preparation. Walls may need an undercoat, or existing stains must be insulated. We have all the necessary preparation products available. If you are in doubt, contact us via the chatbox on our website. We are there to help.

Vintage: full swing CREATIVITY

Truly highlighting “The Charm of Chalk”, Autentico Vintage Furniture Paint is the master class. It is the perfect model for what it really means to use chalk in your paint. Our first paint and certainly what we are most famous for is highly porous, rich in colour and perfect

to use with our range of decorative products. Painting with Vintage is easy and it doesn’t need much preparation. It is very rewarding to see how an old piece of furniture can be uplifted and offered a new lease of life.

Colours: All Autentico colours
Volumes: A4 brush-out, 125 ml, 250 ml, 1 L, 2.5L, 5L and 10L.

Versante: paint with STYLE and STRENGTH

Autentico Versante is formulated with the ideals of maximum versatility in mind. The built-in moisture membrane and UV-filter makes it water-resistant and prevent colpours from fading. Versante is suitable for all areas, including kitchen cupboards, bathrooms and

high traffic hallways, as well as withstanding the needs of exterior walls, (garden)furniture and fencing.

Versante is available in a Matt or Eggshell finish.

Versante Matt acts as our colour reference product with all colours available in small 50 ml tester pots to test a colour “in the flesh”.

Colours: All Autentico colours
Volumes: A4 brush-out, 125 ml, 250 ml, 1 L, 2.5 L, 5 and 10 L.

Velvet Esthetique: let you walls BREATHE

Autentico Velvet is a superior water-based, ultra-matt and washable paint for walls and ceilings. Velvet achieves excellent adhesion and a long-lasting, breathable finish with a great depth of colour. Velvet is a scrub class-1 washable paint and offers an extremely low

steam diffusion factor making it the paint to use in high-insulating new builds and buildings without cavity walls.

When needed, apply a coat of Wallprim for general priming or a coat of Stainblocking Primer when an insulating primer must be applied (in case of severely soiled walls or ceilings).

Colours: All Autentico colours, all NCS, RAL and RAL design colours
Volumes: 2.5L, 5L and 10L. Other volumes available on request.

Venice: create timeless TEXTURE

Autentico Venice is a true historical lime paint. This high-quality lime paint is designed to give a long-lasting, unique finish with superior coverage and a beautiful depth of colour. With Autentico Venice, we have embraced the unique properties which originally made lime

paint so popular. By using Autentico Venice, you can create textures on furniture and walls that aren’t achievable with any other paint. Autentico Venice also is anti-bacterial and anti-allergic.

Colours: Selected Autentico colours
Volumes: A4 brush-out, 250 ml, 1L, 2.5L, 5L and 10L.

Volterra: get the LOOK and FEEL

Autentico Volterra is a heavy-bodied lime paint and combines the ease of application of standard lime paint with the beauty of a plastered finish. With the ready-mixed Volterra, having a Tadelakt designers-wall or a concrete-look wall has come attainable to many. The

application of Volterra is easy to adopt and suitable for DIY. Volterra can be applied with a wide brush and then smoothed with a small trowel to achieve the typical tadelakt style finish. Volterra needs a stable subsurface and to achieve that a coat of Wallprim may be necessary.

Colours: Selected Autentico colours
Volumes: A4 brush-out, 250 ml, 750 ml, 2.5L, 5L and 10L.

Vivace: TOP PERFORMANCE when needed

Developed for all areas where even the best chalk paint isn’t suitable, Vivace is our must-have paint for critical areas, such as wooden doors (interior and exterior), skirting, cornices and all areas that require special attention. Vivace is particularly suitable for painting exterior doors and frames, wooden windows and frames because of the extremely fine grade and ideal viscosity. This makes Vivace also a great paint to use on kitchen and bathroom cupboards in case top performance and a lack of brush marks is needed.

Colours: All Autentico colours all NCS, RAL and RAL design colours
Volumes: A4 brush-out, 250 ml, 750 ml and 2.5L.

Esterno: PERMEABLE and PROTECTIVE

Autentico Esterno is a high quality, matt finish exterior hybrid paint, designed for brickwork, masonry and rendering.

When dry, Autentico Esterno forms a protective layer that is as moisture-proof as any premium acrylic paint but also has the microporous and breathable qualities of mineral paint. With a steam diffusion value of only 0,034 (SD value), Esterno finds itself at the absolute top of permeable paints. The result is the most ideal protective layer whereby the treated material keeps its properties and retains the moisture exchange with the environment surrounding the building.

Colours: All Autentico colours, all NCS, RAL and RAL design colours
Volumes: 5L, 10L. Other volumes available on request.
